### **Advisory # 11 – Vaccine Education / Messaging Toolkit**

BIO is pleased to [announce](#) that today we launched a new educational website, COVID Vaccine Facts. The goal of the website is to address frequent questions about COVID-19 vaccines and vaccine development, with a specific focus on educating both providers and the general public in the US.

Help spread the facts by sharing COVID Vaccine Facts information. We've made sharing easy by creating a toolkit with ready-made social media posts, or if you'd like to craft your own social media posts or feature COVID Vaccine Facts in your organization's newsletter, we've made shareable graphics in English and Spanish. We are also happy to provide the website language in a Word document or another format for easy repurposing. When sharing the facts, we encourage you to link to our site, <https://www.covidvaccinefacts.org>.

Also, please reach out to the BIO team to suggest additional questions that you are frequently hearing about COVID-19 or vaccines. We are committed to updating this site with updated information as Covid-19 continues to evolve.

We hope that this will be a useful resource for you and your constituents. Please do not hesitate to reach out if you have any questions.
