Advisory # 13

The Montana Department of Environmental Quality (DEQ) is seeking eligible applicants interested in installing electric vehicle charging stations (EVCS) at locations throughout Montana. The maximum grant funding available is \$90,000 per EVCS location. Priority locations are identified in the RFA including **Gardiner and West Yellowstone and the I-90 Corridor**. You can find the DEQ request for application here. opportunity [here](#).

Charging stations are an opportunity to drive traffic to your business as identified by many charging locator sites such as [ChargeHub](#). You can search our area on this map to see where stations are.

COVID-19 Relief Funding

Transparency Dashboard Updated Weekly

The state of Montana's [dynamic dashboard](#) shows the Coronavirus Relief Fund grants awarded to businesses and nonprofits. This dashboard will be updated regularly until all grant dollars have been expended.

I find this spreadsheet interesting to look at what each of our counties are doing with the Coronavirus Relief Fund and perhaps triggers some ideas for possible projects that may be eligible for funding in our own areas of oversight.
