Advisory # 16

How far will you have to drive to get a vaccine shot?

I thought this was an interesting interactive map that shows the varying degree of challenges that Madison, Gallatin and Park County will face in distribution of the vaccine to rural populations. The counties with the fewest vaccination sites relative to population size are in Texas, Kansas, Nebraska, Montana and Virginia. The study included existing facilities showing the need for temporary and/or mobile vaccination plans.

[VaxMap shows how far you'll have to drive to get a COVID-19 vaccine shot - TechRepublic](#)

	Madison	Gallatin	Park
Estimated population	8,600	114,434	16,606
Facility density per 10,000 residents	1.16	2.45	1.81
Population more than 10 miles from a facility	62.5%	3%	31.7%
Population >65 years more than 10 miles from a facility	63.6%	9.3%	46.7%
